

Soup Shares

soup /sōop/

Noun: A liquid dish, typically made by boiling meat, fish, or vegetables, etc., in stock or water.

That's the dictionary definition. Our definition: Soup is a magical liquid that lifts your spirits and soothes the soul. Soup is a food that has the ability to do more than just nourish your body.

At Farmers & Artisans we make our soups slowly from scratch using the same quality ingredients (pastured meats, local produce) you have come to expect from us.

Each week you will receive your share of delicious chef prepared soup. A vegetarian option will always be available.

Qty	Soup	Amount
_____	Quart(s) of soup per week @ \$110 (8.46/quart)	_____
_____	Quart(s) of vegetarian soup per week @ \$110 (8.46/quart)	_____
